

# California State Parks Wildlife Walk

## A Self-Guided Activity for Junior Rangers

Take a walk and complete the worksheet below. (Make sure that you are with an adult.)

Count the number of different kinds of birds you see. Write down the names of any you can identify.

Number of birds:

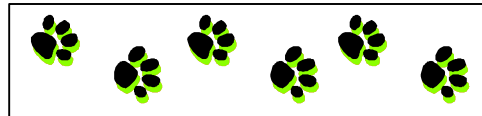

Names of birds:

List the different animals you see on your walk.

What kind of evidence can you find that animals have been in the area?

Draw a picture of some animal tracks that you see. Label your drawings with the name of the animal you think left the track.

Why is wildlife protected in the State Park?

Good job!

Turn in your completed worksheet to the ranger to receive another stamp in your Junior Ranger log book.
